

SUBMISSION OF ABSTRACTS AND FULL PAPERS

In each session of the symposium, provisions are made for oral presentation of 5 research papers related to the topic of the session. We invite clinicians and researchers related to Clinical Genetics to present their observations. Second class sleeper train fare and DA will be provided based on the availability of funds from funding agencies. The last date for the submission of abstracts as contributed papers is 10th August 2017. The abstract should not be more than 300 words. The full papers should not be longer than 4 single-spaced typed A4 pages inclusive of tables, photographs and references. One soft copy of the manuscript must be submitted along with e-mail transfer in MS word to the scientific committee (symposium2017@jmmc.ac.in). Photographs must be in JPEG format. The title should follow the name and address of all the authors. Only registered participants can present the paper. The text of the articles should be divided into various sessions as the case may be. Each reference should be cited in the text in Vancouver style.

A scientific committee will review all the submitted abstracts and the confirmation of acceptance will be intimated before 16th August by e-mail. Availability of travel grants to the requested participants will also be communicated at this time. Last date for the submission of full paper is 7th September 2017. All the presented papers will be published as proceedings with ISBN number and will be sent to the registered participants by post.
